# Getting Started with CACTUS on Raspberry PI

CACTUS PI

## WHY PI?

- Many mission staff want multiple monitors for mission mgmt.
- Most don't want to acquire multiple PCs or Macs for mission mgmt.
- Multiple models of Raspberry PI are viable for mission mgmt.
- Raspberry PI 400 is a convenient, cost-effective package for mission mgmt.
- Raspberry PI 400 is readily available from several on-line vendors in USA & Canada.

## Raspberry PI is a small, cheap, computer

Raspberry PI 400 is a small, inexpensive, low powered computer embedded in a keyboard that can run CACTUS and tools for CAP Missions. The Raspberry PI 400 costs about \$100 and can connect to 2 HDMI monitors.
