Be sure to Allow access to GPS

CACTUS TrackMe

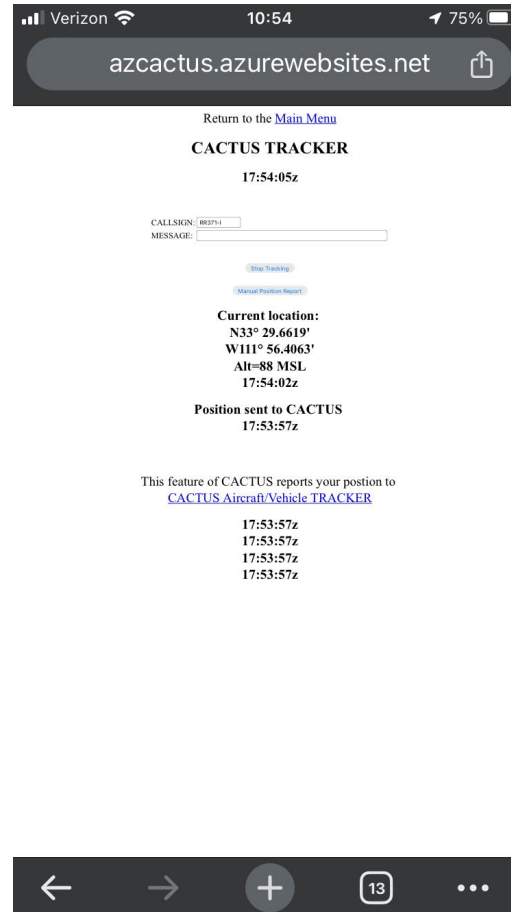

Enter your callsign. This may be your sortie callsign as briefed, a tactical callsign such as UDF1, a vehicle number such as RR2201, or your personal radio callsign such as RR1.
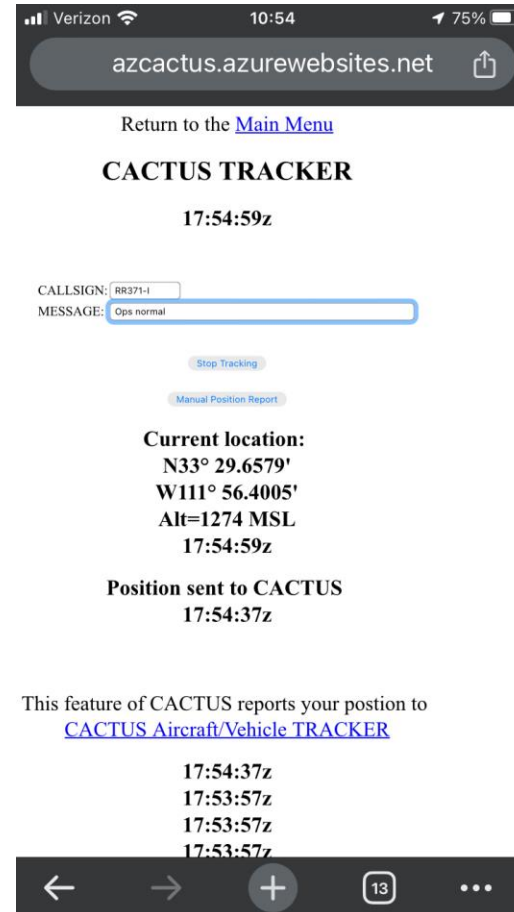

CACTUS TrackMe

On Startup, tracking starts automatically. Sends initial location then updates every minute if in motion.
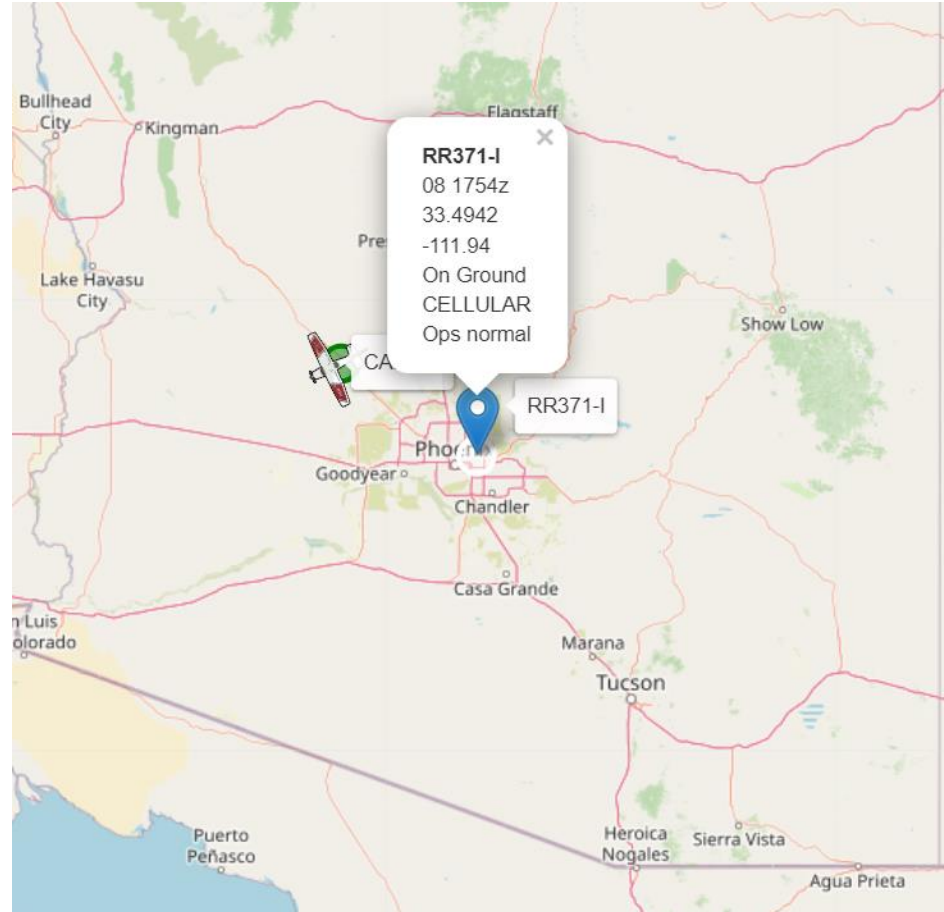

Unfortunately, tracking only works when this web page is visible due to the nature of mobile devices and browsers.
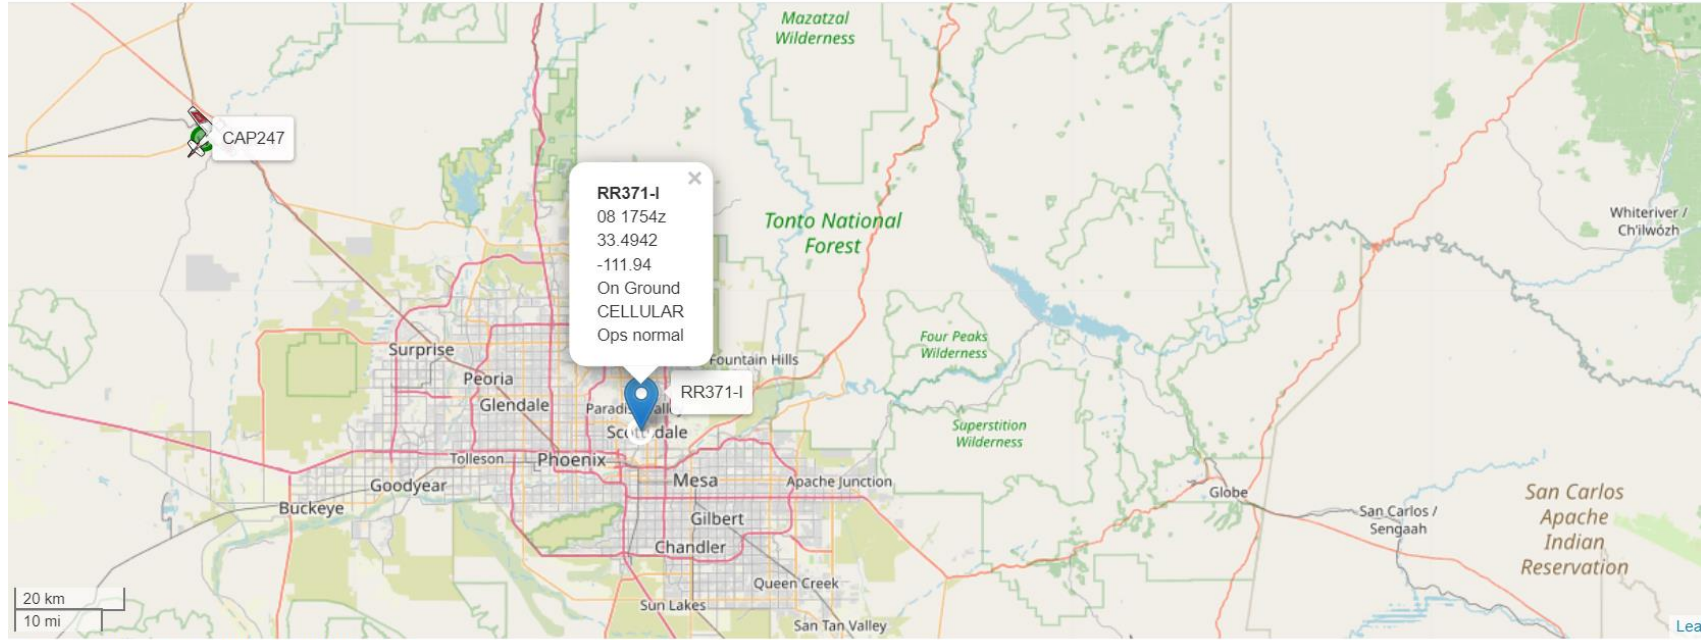

CACTUS TrackMe

Enter a message and click "Manual Position Report" to send a message to CAPTracker.
